Nota: Pentru orientare, puteti utiliza pentru completarea acestei fise exemplul de fisa de proiect din pagina urmatoare pe care am preluat-o dintr-o prezentare facuta de Dragica Karaic de la Ministerul Economiei Muncii si Antreprenoriatului al Croatiei (Ministry of Economy, Labour and Entrepreneurship) si asumata de Ministerul Economiei Baden Wuerttemberg (Wirtschaftsministerium Baden-Württemberg), ambele responsabile pentru Aria Prioritara nr. 8 (PA8).

Desi nu consider exemplul foarte bun, pentru ca se refera doar la proiecte ale autoritatilor sau ale organizatiilor lor, l-am luat in considerare pentru ca este asumat de cele doua ministere responsabile din Croatia si Baden-Württemberg.

Daca totusi acest exemplu nu este sufficient de relevant va rog sa luati in considerare caietul de advocacy si ghidul de advocacy din atasamente.

La categoria thematic priority introduceti va rog numarul actiunii din cele sapte pe care le gasiti in tabelul de culegere a propunerilor de proiecte SUERD - PA8.

Am introdus categoria "Proposing Organization" pentru a putea identifica cui apartine propunerea de proiect. In cazul in care gasesc potentiali parteneri, voi trimite expresia de interes organizatiei emitente. Va rog sa adaugati si numarul proiectului in dreptul "Project Fiche nr.", daca aveti mai mult de o propunere, pentru a putea face o evidenta pe fiecare organizatie in parte.

Rubrica "Partners" este optional daca aveti deja concret de propus. Daca nu, atunci va rog sa introduceti tipurile de parteneri pe care ii doriti.

Project title	Danube Bike Path Initiative
Thematic priority	Tourism
Project description	The Danube Bike Path Initiative aims at the installation of a continuous network of bike paths around the Danube river which means that existent paths have to be upgraded, connected and enlarged.... We are therefore organizing the construction of new paths but also planning to turn little used small streets into bicycle lanes.....It is also an important task to establish a clear and consistent signage that does not only display distances to the next destinations, but also to sights all around the Danube river.....In order to provide an attractive and convincing touristic offer we are about to make sure that all designated paths are well drivable for bikes which means that gravel paths and beaten tracks have to be upgraded...etc
Project manager (including contact address, e-mail, phone, fax)	Max Clustermann Donaustraße 8 D - 78166 Donaueschingen E-Mail: max.clusterm@danube-bike.eu Phone: 0771 748953 Fax: 0771 748955
Timetable	In a first step we intend to establish regionally limited bike path networks focusing on the ... Danube Area, South XXX and the Danube Area between YYY and ZZZ These networks should be accomplished by mid-20**. By and by they will be connected to a single vast network of bike paths connecting the Danube spring with the Black Sea. This should be accomplished by the year 20**.
Project status	Planning phase
Objective(s)	The primary objective is to provide an attractive transnational touristic offer in order to strengthen the touristic industry. Furthermore, the cultural exchange and the development of a comprehension for environmental protection measures represent crucial objectives of our initiative.
Benefits for the Danube region, Sustainability	All the region will profit from a better coordinated, more interesting and sportive touristic offer. Moreover we hope to intensify the cultural exchange among the citizens of the different Danube countries.
Instruments used	Geography Connect (special software), Distance measuring machine, and so forth
Funding (Total budget and shares)	This initiative is mainly financed by the local touristic industries (65 %) but also by state programmes (20 %). Moreover we are supported by the European Fund for Regional Development (15 %). The total budget from the beginning of the project in 20** till the foreseen completion in 20** amounts to about Euro 124 Mio.
